Chairman  
Principal Chief Conservator of Forests  
Jhilmahal, Prayagraj, Shimla  
Executive Committee  
HP State CAMPA.

Annexure A**Changes in the Approved APO under NPV (2009-10) to be ratified by the HP State  
CAMPA Steering Committee**

A few changes in the approved APO under NPV (2009-10) as under, are required to be recommended to the Steering Committee for approval. These are:

- a) Instead of Kolar (Nahan Forest Division), the **Van Thana** is to be constructed at Puruwala (Paonta Sahib Forest Division).
- b) A new design for **Boundary Pillars** has recently been worked out, hence the amount allocated for this work in the APO for 2009-10, is proposed to be withdrawn. This amount shall be adjusted against the enhancement of norms under Assisted Natural Regeneration component (Management of areas with Invasive species- see 'c' below). However, a provision of Rs. 1 crore, for constructing new Boundary Pillars, as per the new design in forest areas vulnerable to encroachments, has been made in the NPV APO for 2010-11. The new design, along with its cost estimate, will also be put up to the Steering Committee in the next meeting.
- c) **Norms for Sub-component -Management of areas Infested with invasive species under the Assisted Natural Regeneration Component of the NPV APO:** A norm of Rs. 25000/- per ha. inclusive of maintenance was approved in the last Steering Committee Meeting for clearing areas of invasive species (mainly Lantana) and planting with bamboo/tall plants. After due deliberations with field agencies, this norm has been found to be rather inadequate, considering the considerable growth of lantana in these areas. Hence, the norm per ha. is proposed to be enhanced to Rs.33000/- per ha. and the no.of tall plants to be planted under this scheme be reduced to 750 per ha. instead of the earlier 1100 plants per ha. The total outlay at the present proposed rates under the component for 2009-10 would now be Rs. 250 lakhs instead of the earlier Rs. 200 lakhs.

The above deviations from the approved APO for 2009-10 under NPV component may be endorsed to be put up before the Steering Committee for approval.
